About Me

Motivated and enthusiastic B.Tech student at Jaypee Institute of Information Technology, Noida, with a solid foundation in MERN stack development and C++ programming. Skilled in data structures and algorithms, with a growing interest in Artificial Intelligence and Machine Learning. Quick learner, eager to gain industry experience and contribute meaningfully to tech-driven projects.

Skills

- **Languages:** C++, JavaScript
- **Web Technologies:** React.js, Node.js, Express.js, MongoDB, HTML, CSS
- **Concepts:** Data Structures, Algorithms, REST APIs, JWT Authentication
- **Tools:** Git, GitHub, Postman, VS Code

Projects

SkillSwap – MERN Stack Skill Sharing Platform 🔗GitHub Repo | 🔗 Live Demo

- Developed a full-stack application for users to share, request, and offer skills.
- Implemented JWT authentication, MongoDB integration, and a user dashboard.
- Designed frontend using React.js and Tailwind CSS.
- Features include skill listings, request management, and messaging interface.

Education

Bachelor of Technology (B.Tech) Jaypee Institute of Information Technology, Noida Expected Graduation 2027

Extracurriculars

- Solved 100+ coding problems on platforms like LeetCode and Gfg
- Learning AI/ML through self-guided projects and online courses
